

Feb 16, 2017

Hello my name is Richard Dyer, I live in Northfield, CT.

Please oppose the elimination of the CEQ. Our lives and economy depend on environmental resources and stability. There is no way we can sustain our community health and prosperity if we do not maintain, support and monitor the wellbeing of our lands, rivers, forests and air. We owe this to ourselves as well as to generations to come.

Please do not support any bill that reduces funding, staff or resources for the Council on Environmental Quality.

Sincerely,

Richard Dyer
